Down Comforter Warmth Levels

From ultra light and barely there, to the fluffiest and warmest goose down duvets available anywhere, we have a comforter that is just right for you.

ULTRA LIGHT.....
Our lightest duvet, for warm sleepers, warm bedrooms and warm summer nights with the windows open.

LIGHT WARMTH.....
The Light Warmth is perfect for use all year long, for Average to Warm sleepers, providing a gentle warmth and loft, without overwhelming.

WINTER WARMTH.....
The Winter Weight is warm and fluffy and is suitable for year around use for Average to Cold sleepers, in cool to cold bedrooms.

CASCADE WINTER.....
The Cascade Winter warmth is very warm and fluffy. Best for Average to Cold sleepers in cold bedrooms.

DUAL WARMTH.....
Does you spouse or partner sleep warmer or cooler than you? Ask us about a custom filled "Dual Warmth" down comforter, with each side filled for your desired warmth level.

We can add more down to your comforter, but we cannot remove it. So if you are concerned about over heating, a good rule of thumb is to select a weight that is one weight lighter than you think will keep you comfortable. If, within 1 year of your purchase, you decide that you would like more down added, we only charge for the actual cost of the down and return shipping.

For A Pillow You Can Dream On...

Plumeria Bay® goose down pillows cushion your head and neck with gentle support while being very adaptable to the specific shape and weight of your head, neck and shoulders.

Selecting the proper firmness of your pillow is easy. Simply choose your firmness based on your sleeping style, and personal preference. For example, a side sleeper will need more support a firmer pillow compared to someone that sleeps on their stomach. So we generally recommend:

- 
-  **A Soft Pillow** if you sleep on your stomach.
 -  **A Medium Pillow** if you sleep on your back, or everywhere.
 -  **A Firm Pillow** if you sleep on your side, unless you are petite.
- If you are petite or have small shoulders, a medium may be a better choice.

We also offer Extra Soft and Extra Firm versions of our pillows. If you know Goldilocks, please tell her (or him)!

All Plumeria Bay® down pillows come with our Perfect Fill™ service. If you decide you would like to add more down, or maybe take some out, anytime within the 1st year of your purchase, just send it to us and we'll add or remove as much down as you'd like. We charge only for any down added, and return shipping. Any down removed will be returned to you in a separate cotton storage bag. Please read about our Perfect Fill™ service for more information.

It Only Makes Sense To Use The Best Goose Down

Plumeria Bay® uses the finest RDS Certified Hungarian White Goose Down, as well as Canadian and Polish White Goose Down, and the finest Eiderdown, for select down comforters and pillows.

 **Our Cascade Made™** down comforters and pillows are filled with your choice of RDS (Responsible Down Standard) Certified Hungarian White Goose Down, in 700, 800 or a rare and exceptional quality 900 fill power. And.... the finest genuine Eiderdown.

 **All Plumeria Bay®** down goes through an extensive state-of-the-art cleaning and sanitizing process and far exceeds any government standards for hypo-allergenic cleanliness.

About The Responsible Down Standard

All Plumeria Bay® Cascade Made™ Down Comforters & Down Pillows are made with RDS Certified Goose Down.

The Responsible Down Standard

was established in 2014 with input from animal welfare groups, industry experts, brands and retailers, with the goal to educate, provide tools for accuracy, and give assurance that down and feathers come from animals that have not been subjected to unnecessary harm at any stage of life.

The Responsible Down Standard

is an independent, voluntary global standard.

The Key Principles of the Responsible Down Standard

From hatching to slaughter, a safe environment for the geese must be provided with and adhered to. Each stage and every entity in the RDS supply chain, is audited by a third-party certification body and must provide proper documentation that the down has been acquired from an RDS Certified supplier. Force-feeding of the birds is prohibited. Removal of down or feathers from live birds (live plucking or molt harvesting) is prohibited. RDS down (and feathers) must be properly identified, stored and processed to assure that it will not be mingled with non-RDS down and feather. Only products with 100% Certified down and feather can carry the RDS logo.
